PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building responsive web applications and websites across frontend and backend environments. Experienced with React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Git, and modern web development tools. Built websites for clients and developed full-stack projects involving authentication, databases, APIs, responsive interfaces, and interactive user experiences. Seeking a junior full-stack or software developer opportunity.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Python, Solidity (learning)

Frontend: React.js, Vite, Framer Motion, Flexbox, CSS Grid, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Mongoose, Supabase

Tools: Axios, Git, GitHub, VS Code

Security: Cybersecurity (learning)

EXPERIENCE

Freelance Full-Stack Developer — Self-Employed | Lagos, Nigeria

- Built websites for clients based on functional and design requirements.
- Developed a school website intended to address multiple school-related needs and improve how information and services are presented to users.
- Worked across frontend and backend development to build functional web experiences.
- Applied responsive design principles for different screen sizes and devices.
- Used modern development tools including React.js, JavaScript, Node.js, Express.js, MongoDB, Git, and GitHub.

SELECTED PROJECTS

School Website — Freelance Client Project

- Developed a website for a school to address multiple communication, information, and user-facing needs.
- Designed and implemented the frontend experience with a focus on usability and responsive layouts.
- Project is currently under development and is not yet publicly deployed.

Full-Stack Blog Application — React.js, Vite, Node.js, Express.js, MongoDB

- Built a full-stack blogging platform with separate frontend and backend architecture.
- Implemented user authentication, account functionality, posts, profiles, and backend API integration.
- Used MongoDB for persistent application data and Git/GitHub for version control.

Personal Developer Portfolio — React.js, Vite, JavaScript, CSS, Framer Motion

- Designed and developed a personal portfolio to showcase technical skills, projects, and development experience.
- Built responsive interfaces with modern frontend technologies and interactive animations.
- Deployed the portfolio for public access.

EDUCATION

Ad-Dawah Comprehensive College — West African Senior School Certificate Examination (WAEC)

CERTIFICATION

Utiva — Full-Stack Web Development Certificate
